Some pictures from the Christmas party. We also had a surprise visit from Dana Forrester. He brought a couple of drawings for 2 of our members, it's great to have wives like Sharon and Armynta. We all had fun.

Purpose of St. Louis Corvette Club:

To enjoy the Corvette through association with other Corvette owners. To have fun on many levels through social events, road trips, car shows, charity events and competition as each person wishes. To actively promote and work for the advancement of St. Louis Corvette Club and its activities. To respect the differences and wishes of each STLCC club

As we start our next year of fun and games for our club. I would like to invite all of you to our planning meeting January 10th at the Sunset Hills Banquet Center (our normal meeting place). Please bring all your fun ideas to share and get on the club's calendar of events. No run to small or dull.

We really grew as a club this past year. We lost a close member and friend and several of our members lost loved ones. We will value their memories as new ones are made.

Enjoy the ride
Randy Howard
President

MAJOR FUND RAISER FOR THE VA ACTIVITIES.

NOTICE TO ALL

General Motors Co. said Monday it is recalling 22,000 Chevrolet Corvettes over concerns that the roof may fly off the vehicle -- after a 2006 recall didn't fix the problem. The new recall applies to 2005-07 model year Corvettes and Corvette Z06 models. GM told the National Highway Traffic Safety administration that the adhesive between the roof panel and frame may separate. GM will install a redesigned roof panel as a result. "If there is a partial separation, the driver may notice one or more symptoms, such as a snapping noise when driving over bumps, wind noise, poor roof panel fit, roof panel movement/bounce when a door or hatch is closed, or a water leak," GM said. This is the second attempt by GM to fix the problem. In May 2006, GM told NHTSA that it was recalling 30,793 2005-06 Corvettes over concerns that the vehicles, "primarily in hot and humid climates, have a condition in which the adhesive between the roof panel and the frame may separate." GM said the problem was due to inadequate bonding strength, following reports of at least 11 roof separations. GM's 2006 fix was to insert adhesive foam -- and, if necessary, replacement of the roof.

Good Evening,

An update from Dave Davidson on the birth of his Grand Sport on February 11, 2010! If you are interested in making the trip with Dave & Glenda please contact Marty Dooley at 314-894-0303 or jmdooley6493@aol.com. Arrival in Bowling Green would be Wednesday night February 9th and Marty is checking into rooms at the Super 8 right across from the museum.

Thanks and have a great evening.
